Internship Completion Letter

Admission No. - 601596

To,
AKANKSHA SHARMA
IIT JODHPUR

Subject: Confirmation of Completion of Internship and Project Report Submission.

Dear Candidate,

This is to formally certify that Akanksha Sharma has completed a four-week internship with India Space Academy, serving as a "Remote Sensing and GIS Intern" during our Summer Training Program held from July 15, 2025, to August 16, 2025. During this period, the candidate actively participated in structured training sessions and project-based work focused on Remote Sensing and Geographic Information Systems (GIS).

The candidate demonstrated strong analytical acumen, coding proficiency, and effective problem-solving abilities while contributing to the assigned project(s). We sincerely appreciate the dedication, diligence, and meaningful contributions exhibited throughout the internship tenure.

We wish you all the best in your future endeavors and career pursuits. We are confident that the skills and experience you gained here will serve you well.

The candidate completed and submitted the report of the following project (s):

- Urban Expansion Analysis using Built-up Index (NDBI): The study used NDBI derived from satellite imagery to monitor urban growth over time. The project revealed significant spatial trends in built-up land expansion, peri-urban sprawl, and land conversion from natural/agricultural areas to urban settlements. Such analysis is highly relevant for sustainable urban planning, infrastructure development, and policy making.
- Forest Cover Change Detection using NDVI Differencing: The project compared NDVI values from multi-date satellite imagery to detect forest cover changes over time. The outputs revealed areas of deforestation, degradation, and regrowth, offering critical insights into vegetation dynamics. The findings are useful for biodiversity conservation, sustainable forest management, and climate change mitigation. We wish you the best in your future research and professional endeavors.

Best regards,
